DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 3-6, 9-12, and 43-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over PCT Publication WO 03/008680 A1 (Sen) in view of PCT Publication WO 93/15251 (Gessner), for reasons of record.

Response to Arguments

3. Applicant's arguments filed December 7, 2006 have been fully considered but they are not persuasive.

Applicants argue that the polyolefin of Sen that typifies Component B has a melting point different than that of applicants' propylene polymer.

In this regard, it is the combined teachings of Sen and Gessner that must be considered. Gessner clearly teaches a propylene of the type contemplated by applicants and provides a suggestion to the skilled artisan its usage.

Applicants argue that the present invention has structural differences from those of Sen.

In response thereto, the teachings of Sen on page 6, would have provided a suggestion to the skilled artisan for structures as contemplated by applicants.

Applicants argue that the instant invention has a beneficial result in the fiber configuration over the prior art.

In this regard, there is no clear factual evidence of record to substantiate this allegation.

Accordingly, the examiner's position remains that the combined teachings of Sen and Gessner would have rendered obvious the instant claimed invention.

No claims are allowed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
